Fulfilling the UK's housing needs

Our core business is managing third-party capital which is deployed in the form of debt finance to small and medium-sized residential developers. We provide competitive, flexible finance terms to enable these developers to build mainstream housing in major towns and cities across the UK. We are particularly focused on financing under-supplied segments of the market, such as housing that's affordable for people on the lower rungs of the property ladder.

To service our borrower clients, we are expanding and developing our asset management activities to increase the funds available for deployment to this sector, thereby building market share, revenue growth, profitability and long-term shareholder value.
